Sean Riedel
303-243-2252 | sriedel@ucsc.edu | website

Summary: I am a graduate student pursuing a career in scientific computing and applied mathematics. I am looking for a job where I can use my analytical and computational problem solving skills to tackle real world problems that will help humanity thrive during the next century and beyond. I am especially interested in using mathematics and computing to pioneer new ways to mitigate the climate crisis.

Education

B.S. in Mathematics, University of California, Santa Cruz — June 2021
- Minor in Physics
- GPA 3.9
- Member of the NCAA Cross Country and Track teams

M.S. in Applied Mathematics and Scientific Computing, University of California, Santa Cruz — June 2022 expected
- GPA 4.0

Experience

Teaching Assistant, University of California, Santa Cruz — Fall 2021 - Present
- Held discussion sections and office hours to help students with courseworks. Graded and provided feedback to students on exams.
- Courses supported: Multivariate Calculus for Engineers, Mathematical Methods for Economists.

Summer Intern, Los Alamos National Laboratory X Computational Physics Division — Summer 2021
- Implemented the Rutherford scattering model in a large, C++, Monte Carlo charged particle transport (CPT) code library.
- Performed code to code verification using two other CPT codes at the laboratory.

Math and Physics Tutor, UCSC Learning Support Services — 2019 - 2021
- Conducted 3 weekly small group tutoring sessions focused on engagement of students.
- Courses tutored for include: Waves and Optics, Real Analysis, Abstract Algebra, Linear Algebra, Vector Calculus, and Discrete Mathematics.

Undergraduate Researcher, Polymath Research Experience for Undergraduates — Summer 2020
- Developed a visualization tool for representing convex geometries using circles in the plane.
- Contributor on a paper with cohort of 12 students and our mentor Professor Kira Adaricheva.

Program Mentor, UCSC Learning Support Services — 2019
- Trained and mentored other tutors.
- Conducted quarterly performance reviews of other tutors.

ATLAS electronics testing assistant, Santa Cruz Institute for Particle Physics — 2018
- Collected data used to analyze the effects of annealing on silicon strip particle detectors.

Honors

Highest GPA of all UCSC male student athletes — 2019
- Awarded for a GPA of 3.98 at the time

Men's Scholar-Athlete of the year — 2021
- Coast-to-Coast Athletic Conference Cross Country awards

Skills

Programming: C++, Matlab, Python, Fortran, Git
LaTeX: Proficient in mathematical and scientific document typesetting
